The Code of Conduct applies to all staff of the Kreditimi Rural i Kosoves. The Code describes in a document guidelines for staff behavior, which are described in the various rules and regulations of KRK. The Code also provides guidance on how to exercise good judgment in ethical issues.

2. Introduction

Kreditimi Rural i Kosoves is based on the strong foundation of trust and respect. For us as a company it is essential to maintain a reputation for honest and fair treatment in accordance with the mission of social responsibility.

Mission

Our mission is to provide financial services to low-income clients, with a particular focus on micro, small, agricultural and other businesses in rural and urban areas, with a priority focus on agriculture and a specific attention to financial, social and environmental sustainability.

Vision

Our vision is to become a sustainable Microfinance Institution, which provides a wide range of financial services to its target group of clients while being competitive in the market.

To promote our values, KRK has designed and adopted this Code of Conduct ("The Code") to instruct all employees on the standards of business practices and ethical responsibilities. With the approval of this code, you agree that our success is based on your commitment to observe and practice the highest standards of professional and ethical conduct.

The Code describes obligations of KRK staff. At the same time, the KRK as employer has an obligation to assist the staff in these matters by giving information and advice and by being responsive to the concerns raised by staff in relation to these issues of ethical behavior. Ethical behavior in the workplace is an active process that requires you to make choices and decisions consciously and diligently and to exercise good judgment, in accordance with the ethical values of the company. Some basic guidelines to keep in mind include:

- Always act honestly and impartially when performing the duties;
- Never use privately or reveal without authorization any confidential information you will get while working at KRK;
- Avoid activities outside the workplace that may be perceived as a conflict of interest; and
- Always treat others with courtesy and in a professional manner.

No guide or code, no matter how detailed it is, can not foresee all the challenges we may face at the workplace. For this reason there are additional resources that we can use when we have questions about behavior at work. Additional resources include internal regulation for KRK personnel or laws in force. When in doubt about how to act in certain cases pertaining to the conduct or ethics at work, before you act, seek advice from supervisor or Human Resources. Also ask yourself:

Is the action legal?

Do you feel that is right?

Will it reflect negatively or positively on me or the Company?

What would a reasonable person think about my action?

Is there any alternative action that causes no ethical conflict?

Any violation of this Code by any employee may result in disciplinary measures in accordance with the regulations and the statute of the KRK.
